12/10/83

Dear Ted,

Thanks for your letter but do not feel guilty because they had ti reigged so that nothing would have made any real difference.

They did it with the phone setup. No way of breaking through that.

If I had known in advance I could have made the situation look better and them look worse, but that is all.

I've written them, without answer, and I have not received the promised tape, so I'm sure glad you made and sent one.

The odd thing is that despite the number of stations they said were carrying that show, I've heard only from people I know, and very few of them.

No mention of itx elsewhere that I know of.

Thanks and take care of yourself,
